

1. BEFORE YOU INVEST

IS A UNIT TRUST THE RIGHT PRODUCT FOR YOU?

Collective Investment Schemes (commonly known as unit trusts) are “funds” where the money from many investors are pooled together and invested in assets like shares, bonds, property and cash. This means that investors do not have to manage individual investments themselves, but rely on the skills of appointed investment professionals to manage the fund. Investors hold equally priced units where the price of the unit is based on the value of the underlying investments held in the fund.

Some funds invest in the shares of companies, which means that part of their profits will be paid out periodically in the form of dividends. Other investments – like government bonds, corporate bonds and money market – make periodic interest payments. You can choose to receive these distributions, or use the money to buy more units and grow your investment.

WHAT ABOUT TAX?

There is no tax paid within a unit trust vehicle. Interest income subject to Interest Withholding Tax, must be declared annually to NAMRA and will be taxed according to the prevailing rates. You will receive a statement every year that clearly states the interest, where relevant, that you have received.
